- **SR 13-3 – Leveraged Lending**

Maintain prudent underwriting; avoid excessive leverage and unrealistic repayment assumptions; ensure strong cash flow analysis.

- **SR 11-10 – Counterparty Credit Risk Management**

Establish formal exposure limits, measure current and potential future exposure, and perform stress testing.

- **SR 21-19 – Counterparty Risk (Post-Archegos)**

Strengthen margin practices, concentration monitoring, escalation procedures, and board oversight of large counterparties.

- **SR 20-13 – Credit Risk Review Systems**

Maintain an independent credit risk review function that validates loan grading and reports directly to senior management/board.

- **SR 19-8 – CECL (Current Expected Credit Losses)**

Maintain adequate allowance for credit losses using documented, supportable, forward-looking methodologies.

- **SR 98-25 (SUP) – Internal Credit Risk Ratings**

Use consistent internal risk rating systems aligned with capital allocation and validate them independently.

- **SR 00-8 (SUP) – Uniform Retail Credit Classification**

Apply standardized delinquency, charge-off, and retail credit classification policies.

- **SR 94-62 (FIS) – Shared National Credit Program**

Ensure strong underwriting and independent risk assessment for large syndicated loans.
